

The command `print(g)` prints something.

The command **`print(g)`** prints something.

The command *`print(g)`* prints something.

Text enclosed inside `\texttt{verbatim}` environment  
is printed directly  
and all `\LaTeX{}` commands are ignored.

---

```
#include <iostream>

int main() {
    std::cout << "Hello World!";
    return 0;
}
```
